

High dynamic microphone, extended frequency range for vocals and instruments.

With your lips at less than 15 cm from the Mic grill the sound becomes warm and powerful, and you can have maximum isolation from other sounds. With distances over 15 cm the sound progressively becomes more natural and also more affected by environmental noise. The XC58 is also particularly indicated for picking up acoustic and percussive instrument, and to be used in front of guitar amplifiers.

<b>Type</b>	dynamic
<b>Polar Pattern</b>	cardioid
<b>Sensitivity</b>	-55 dBV/PA
<b>Frequency Range</b>	50 - 18.000 Hz
<b>Impedance</b>	<600 ohm
<b>Connector</b>	XLR 3-Pin Male
<b>Size</b>	49 mm x 182 mm
<b>Net Weight</b>	300 g
<b>accessories</b>	stand adaptor
